

Project Charter

Date: October 2025

Sub-Project Title: Member Registration & Authentication System
Project Start Date: October 2nd, 2025 Projected Finish Date: November 20th, 2025
Budget Information: Total Budget: \$160,000 - Software Development and Testing: \$90,000 - Security and Authentication Modules: \$25,000 - Server Hosting and Database Setup: \$15,000 - Contingency: \$30,000
Project Manager: Sameeh Hasayen, (416) 534-6492, sameeh.hasayen@torontomu.ca
Project Objectives: ● Implement a secure, efficient, and user-friendly online registration and authentication platform for library members. ● Implement a membership approval workflow so librarians/admins can review and activate new accounts. ● Integrate member data with the central library database and Staff Dashboard (Sub-Project 7). ● Complete the system in its entirety within 2 months, under a budget of \$160,000.
Success Criteria: ● Members can register and log in securely using their library card numbers and PIN. ● Librarians/Admins can approve applications through the staff dashboard efficiently. ● Successful integration with the overall Digital Library Management System. ● The project meets deadlines and stays within budget. ● All functional and security tests are successfully completed and documented.
Approach: Software Development Lifecycle (SDLC) Approach using Waterfall model 1. Planning (Week 1): Gather requirements and design system. 2. Development (Weeks 2 - 5): Build core modules using react. 3. Integration (Week 6): Link database and Staff Dashboard. 4. Testing (Week 7): Conduct functionality, usability, and security testing. 5. Deployment (Week 8): Roll out system by/before deadline.

Roles and Responsibilities

<i>Name and Signature</i>	<i>Role</i>	<i>Position</i>	<i>Contact Information</i>
Sameeh Hasayen	Project Manager	IT Project Manager	sameeh.hasayen@torontomu.ca
Khushi Ahir	Frontend developer	Software Engineer	khushibharatbhai.ahi@torontomu.ca
Hachi Ndu	QA Tester/Documentation Lead	QA specialist	hachi.ndu@torontomu.ca
Michelle Bui	Security Analyst	Security Specialist	m4bui@torontomu.ca
Nidhi Biswas	Backend developer	Software Engineer	nidhi.biswas@torontomu.ca

Comments: All of the above stakeholders agree on the scope, timeline, and deliverables.
